

THE BIOAXXIS L113 FINGERPRINT DOOR LOCK

BIOMETRIC SOLUTIONS FOR HOME AND OFFICE APPLICATIONS

**RUGGED, DEPENDABLE LOCK WITH
ROBUST USER MANAGEMENT CAPABILITY!**

**310 USERS!
NO PIN CODES!
FULL AUDIT TRAIL!**

KEY FEATURES

- ❑ Schedule times and days that housekeepers or employees have access to your home or business. With this fingerprint lock, you are in complete control!
- ❑ Easily add and remove users such as guests or employees on an individual basis.
- ❑ Weatherproof - this lock can be placed in adverse weather without the fear of damage caused by moisture, snow, dust, UV, or humidity
- ❑ Up to 310 user fingerprints (300 Users and 10 Administrators)
- ❑ One-touch Trigger Switch makes activating the biometric fingerprint sensor simple and fast
- ❑ Replaceable "7-pin Cam lock" makes getting additional keys made easy
- ❑ Easily move users between multiple locks with the L113 Programming Kit.
- ❑ Scheduled "Free Ingress" times where the lock does not require any biometric verification, i.e. during business hours.
- ❑ BioAxxis® L113 can meet most regulatory compliance requirements. With an ADA styled handle, fire code-compliant design and Audit Trail functionality, this lock even meets HIPAA's compliance standards.

ACCESS CONTROL MEETS DOOR LOCK

The BioAxxis L113 fingerprint door lock is the perfect fusion of style and sophistication. This state of the art door lock blends break through technology with superior craftsmanship to produce the finest Biometric door lock available today. It offers far more features and functionality than any other door lock on the market. Through its unique programming kit, the BioAxxis L113 allows you to access a wide array of specialized options. A major feature that separates the BioAxxis L113 from other door locks is the ability to add and remove users without deleting everyone enrolled. It will allow you to grant certain users access to your home or office at select times and dates. For instances, if you have a housekeeper and they come to work 3 days a week, you can set the lock to allow them entrance on those set dates and times.

Once enrolled, a person's fingerprint access can be granted to other BioAxxis L113 units throughout your home or business. The BioAxxis L113 can also provide a convenient "Audit Trail". By linking the programming kit and your PC you can retrieve a complete timeline of all the doors recent activities. The rugged weather proof construction and aesthetic design make the BioAxxis L113 fingerprint lock perfectly suited for any indoor or outdoor environment. It's also ADA compliant. These features, coupled with a 310 user count, make this lock the ideal solution to any commercial or residential security need.

**4AA Battery pack operates
with "Low battery alert" & has
a non-volatile memory. Will
not delete stored fingerprints
(even if batteries expire)**
